

ORAL DEFENSE EVALUATION

Program/Strand: _____
Date of Defense: _____

Part I: Proposal Defense Evaluation

		GROUP NO./PRESENTER NO. SCORE										
	MAXIMUM SCORE	1	2	3	4	5	6	7	8	9	10	11
A. SCIENTIFIC QUESTIONS ARE RATIONAL												
• merits, relevance, and significance of questions	5%											
• purpose, scope of study, clarity and achievability of the objectives	5%											
• originality of the idea	5%											
TOTAL	15%											
B. BACKGROUND INFORMATION												
• Precise, concise, and pertinent information	3%											
• Literature review	3%											
• Credibility of the study	4%											
TOTAL	10%											
C. MATERIALS AND METHODS												
• Appropriateness of the model chosen	10%											
• Clarity in the description, making the study reproducible	10%											

- Adequacy of Observations/Data /Design to the Research Questions/Statement of the Problem - Feasibility of the Study	10%												
TOTAL	30%												
D. ANALYSIS													
Data are correct and accurately presented	5%												
Systematic, logical, and thorough objective and designation of data	10%												
Utilization of correct statistical tools/data analysis	5%												
TOTAL	20%												
E. WRITING STYLE AND PRESENTATION													
Clarity, fluidity, and organization of text	2%												
Correctness of the grammar and construction	2%												
Correctness of the paper layout/format	2%												
Readability of the charts, graphs, figures, tables	2%												
Properness of bibliography, acknowledgement, and appendices	2%												
TOTAL	10%												
F. ORAL PRESENTATION													
Clarity, fluidity, and organization of the presentation	2%												
Correctness of the grammar and construction	3%

ORAL DEFENSE EVALUATION

Program/Strand: _____

Date of Defense: _____

Part II. Final Defense Evaluation

		GROUP NO./PRESENTER NO. SCORE										
	MAXIMUM SCORE	1	2	3	4	5	6	7	8	9	10	11
A. RATIONALITY OF THE SCIENTIFIC QUESTIONS												
• merits, relevance, and significance of questions	5%											
• purpose, scope of study, clarity and achievability of the objectives	4%											
• originality of the idea	1%											
TOTAL	10%											
B. BACKGROUND INFORMATION												
• Precise, concise, and pertinent information	3%											
• Literature review	3%											
• Credibility of the study	4%											
TOTAL	10%											
C. MATERIALS AND METHODS												
• Appropriateness of the model chosen	5%											
• Clarity in the description, making the study reproducible	5%											
• Experiment design ○ Control of Variable ○ Feasibility and Adequacy of Anticipated Observation ○ Specificity of	5%											

Experiment to Answer Questions													
TOTAL	15%												
D. ANALYSIS													
• Data are correct and accurately presented	5%												
• Systematic, logical, and thorough objective and designation of data	10%												
• Utilization of correct statistical tools/data analysis	5%												
TOTAL	20%												
E. CONCLUSION													
• Conclusion is validated by the result of the study	5%												
• Statement and explanation of the significance of the study	5%												
• Self-critiquing towards study	5%												
• Appropriateness of the suggestions and recommendations	5%												
TOTAL	20%												
F. WRITING STYLE AND PRESENTATION													
• Clarity, fluidity, and organization of text	2%												
• Correctness of the grammar and construction	2%												
• Correctness of the paper lay-out/format	2%												

• Readability of the charts, graphs, figures, tables	2%												
• Properness of bibliography, acknowledgement, and appendices	2%												
TOTAL	10%												
G. ORAL PRESENTATION													
• Clarity, fluidity, and organization of the presentation	2%												
• Correctness of the grammar and construction	3%												
• Ability to answer the questions	10%												
TOTAL	15%												
TOTAL SCORE	100%
